S.S.S. DRIVES OUT

Rheumatism is in reality an internal inflammation—a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Uric acid, an irritating, inflammatory accumulation, gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, acrid condition. The pains and aches and other disagreeable and dangerous symptems of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. 6 does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the blood, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every Rheumatism is in reality an internal inflammation—a diseased condition of the wind the cause. GREAT THRONG BRAVED RAIN

Wenther Marred Spectacle.

But the spectacle to-day was not half so inspiring as the scene enacted here when Admiral Evans sailed away. The dampness and the darkness spoiled what would have been the most glorious picture that ever thrilled the hearts of those who watched. Even as the rainhow colors shot up across the masts from stem to stern, with sirem whistles crashing the air with a medley that was wildly joyous, the rain-scaked mass of humanity stood mildly by in silence. But the bosom of the multitude was moved with pride, its silent greeting and welcome home being far more deep and cordial than if if had split the atmosphere with strong and riotous lungs. Had the shitps pulled closer in they would have heard another sound than that which was made by steam.

The harbor was black with boots. They came from everywhere, all filled to the lurching point with happy through a proposed as a slap in the home folks' isce,

with strong and riotous lungs. Had the slitps pulled closer in they would have heard another sound than that which was made by steam.

The harbor was black with hools. They came from everywhere, all flied to the lurching point with happy throngs, and they obeyed the signals from police patrol without a snarl. But when the engines, which fought their way through the seven seas, had ceased way through the seven seas, had ceased
